

MUSoD Rounds
D4 Case Information

Student Name:

Emily Riesgraf

Case abstract (Provide a brief synopsis of this patient):

Patient came to the dental school because she heard we have “cheap implants” for #6 she lost due to caries/perio. The patient is also concerned about the esthetics of #8, especially if she is putting money into replacing #6, then she wants the perfect smile. The patient works part time, lives nearby and has financial resources to move forward with esthetic reconstruction.
