

Student Name:
Aakeeb Amin
Case abstract (Provide a brief synopsis of this patient):
40 year old Caucasian male Presents with a chief complaint of “I’m here because of my jaw and exam!” Pt has multiple resin restorations placed by another dentist. Pt is cognititvely disabled and has retinis pigmentosa, both of which affect the patient’s dexterity. Upon opening, there was a lot of pain and clicking in the patient’s jaw. Pt was seen by student for completion of stage 1 care. An occlusal guard was fabricated and delivered on 10/01/2020 to alleviate pain in the TMJ.
